

Transportation, Housing, and Urban Development Appropriations Requests

The following requests are Idaho-related projects supported and sponsored by Senators Crapo and Risch:

Item Name: American with Disabilities Act Bus Stop Improvements

Amount Requested: \$800,000

Recipient: Valley Regional Transit/COMPASS

Location of work: Ada and Canyon Counties, Idaho

Public Interest: To provide accessibility for public transportation services in compliance with the Americans with Disabilities Act

Project Description: The improvements to the bus stops include installation of wheelchair access points, modifications to curbs and ramps, shelter improvements, and signage and audible signal crossings.

Item Name: College of Southern Idaho Student Safety Initiative

Amount Requested: \$500,000

Recipient: College of Southern Idaho

Location of work: Twin Falls, Idaho

Public Interest: To provide a safe traffic pattern for pedestrians

Project Description: The project will continue traffic flow improvements and a bypass to mitigate cross-campus traffic flow.

Item Name: Eastern Idaho Community Action Partnership Program Consolidation Initiative

Amount Requested: \$1,000,000

Recipient: Eastern Idaho Community Action Partnership

Location of work: Idaho Falls, Idaho

Public Interest: To consolidate service facilities for low-income clients in one building

Project Description: The project will remodel a building used by the Partnership in order to consolidate services for low-income Idahoans operating in separate facilities. The renovations will meet Leadership in Energy and Environmental Design Silver certification requirements.

Item Name: FH-24, Banks to Lowman Rock Fall Mitigation

Amount Requested: \$1,500,000

Recipient: Idaho Transportation Department

Location of work: Idaho

Public Interest: To increase the safety, mobility, and convenience for travelers

Project Description: The project will replace a 150-foot bridge over the Middle Fork of the Payette River, mitigate the reoccurring rock falls and mud slides that continually block this route, and address the right-of-way along the 25-mile stretch of forest highway between Banks and Lowman.

Item Name: Food Bank and Book Storage Facility

Amount Requested: \$2,600,000

Recipient: Treasure Valley Reading Foundation

Location of work: Nampa, Idaho

Public Interest: To help provide low-income families and the chronically homeless with food.

Project Description: The project will support the construction of a building to house a food bank and book storage facility for low-income Idahoans in Nampa.

Item Name: Franklin Road, Touchmark Way to Five Mile Road

Amount Requested: \$2,400,000

Recipient: Ada County Housing District

Location of work: Boise, Idaho

Public Interest: To improve traffic flow, increase vehicular capacity, reduce congestion, and enhance pedestrian safety

Project Description: The project provides roadway and intersection improvements to 1.6 miles of Franklin Road from Touchmark Way to Five Mile Road.

Item Name: I-15, Beaver Creek to Montana State Line Pavement Rehabilitation

Amount Requested: \$6,000,000

Recipient: Idaho Transportation Department

Location of work: Clark County, Idaho

Public Interest: To maintain and improve a heavily-used section of I-15

Project Description: The project will rehabilitate 84 lane-miles of I-15 from Beaver Creek to the Montana state line.

Item Name: I-15, Devil's Creek Interchange to Browning's Corner Pavement Restoration

Amount Requested: \$6,000,000

Recipient: Idaho Transportation Department

Location of work: Idaho

Public Interest: To maintain and improve a heavily-used section of I-15

Project Description: The project will rehabilitate 19 lane-miles of I-15 between the Devil's Creek Interchange and Browning's Corner.

Item Name: I-84/184, Caldwell to Glenn's Ferry Pavement Rehabilitation

Amount Requested: \$6,000,000

Recipient: Idaho Transportation Department

Location of work: Idaho

Public Interest: To maintain and improve a heavily-used section of I-84

Project Description: The project will rehabilitate 165 lane-miles of I-84/184 between Caldwell and Glenn's Ferry.

Item Name: I-84, West of Wendell to Juniper Rest Area Pavement Rehabilitation

Amount Requested: \$6,000,000

Recipient: Idaho Transportation Department

Location of work: Idaho

Public Interest: To maintain and improve a heavily-used section of I-84

Project Description: The project will rehabilitate 82 lane-miles of I-84 between Wendell and Juniper.

Item Name: Idaho Advanced Public Transportation Systems Deployment

Amount Requested: \$3,277,440

Recipient: Idaho Transportation Department

Location of work: Idaho

Public Interest: To improve operating efficiencies, coordination, and customer service provided by rural and small urban transit providers

Project Description: The project will utilize Advanced Public Transportation System technologies to improve services to the elderly, persons with disabilities, and the general riding public.

Item Name: Idaho Nevada Community Development Housing and Capital Fund

Amount Requested: \$750,000

Recipient: Idaho Nevada Community Development Financial Institution

Location of work: Idaho

Public Interest: To increase the level of lending for affordable housing in Idaho

Project Description: The project will provide capital, to be matched with funds from private sector financial institutions, to help increase affordable housing lending in Idaho.

Item Name: Idaho Transit Coalition Bus and Bus Facilities Project

Amount Requested: \$5,333,000

Recipient: Idaho Transit Coalition

Location of work: Idaho

Public Interest: To provide more efficient, effective and safe transit services

Project Description: The project will permit transit agencies throughout Idaho to enhance services through vehicle procurement, transit shelter and facility improvements, and preventative maintenance on existing fleet.

Item Name: Memorial Drive Reconstruction and River Parkway Expansion

Amount Requested: \$1,000,000

Recipient: City of Idaho Falls

Location of work: Idaho Falls, Idaho

Public Interest: To provide for economic redevelopment in historic downtown Idaho Falls

Project Description: The project will support the reconstruction of Memorial Drive in order to connect downtown businesses with Snake River greenbelt city park facilities.

Item Name: Northern Ada County Intelligent Transportation System Improvements

Amount Requested: \$284,800

Recipient: Ada County Highway District

Location of work: Ada County, Idaho

Public Interest: To reduce congestion on a major commuter route in Ada County

Project Description: The project will support installation of Intelligent Transportation System devices, including signal upgrades, Traffic Management Center improvements, and dynamic messaging signs to alert commuters to traffic incidents.

Item Name: North Idaho Remote Communications Outlet

Amount Requested: \$908,000

Recipient: Idaho Transportation Department

Location of work: Idaho

Public Interest: To allow direct pilot-to-controller radio communications and communications between pilots and the Federal Aviation Administration flight service stations

Project Description: The project will construct a remote communications outlet, including electric power, communications and shelter facilities, and remote-controlled radio transmitters and receivers.

Item Name: Petroleum Terminal Facilities Relocation Feasibility Study

Amount Requested: \$385,000

Recipient: City of Boise

Location of work: Boise, ID

Public Interest: To analyze options for elimination of a potential threat to public safety and welfare

Project Description: The project will complete a study to assess the environmental impact, mitigation, relocation, and redevelopment of a petroleum terminal facility within Boise.

Item Name: Pocatello Community Parks Modernization

Amount Requested: \$228,000

Recipient: City of Pocatello Parks and Recreation Department

Location of work: Pocatello, Idaho

Public Interest: To improve city park and recreation facilities

Project Description: The project will support improvements to Pocatello public recreations facilities, including restroom/concessions at O.K. Ward Park, a disabled-accessible play structure at Ross Park, a disabled-accessible play structure at Westello Park, and electrical upgrades to a Community Recreation Center.

Item Name: Port of Lewiston dock expansion

Amount Requested: \$1,800,000

Recipient: Port of Lewiston

Location of work: Lewiston, Idaho

Public Interest: To allow U.S. employers to import/export products more efficiently and compete more effectively in a global market

Project Description: The project will support continuing construction of a 150-foot dock extension, doubling the capacity of the dock and providing additional barge capacity to accommodate heavy-lift/oversize cargo shipments.

Item Name: Rail Crossing Improvements at Idaho National Laboratory facilities

Amount Requested: \$4,600,000

Recipient: Idaho National Laboratory

Location of work: Idaho Falls, Idaho

Public Interest: To connect the Center for Advanced Energy Studies with University Place

Project Description: This project will plan and construct a two-lane railroad overpass with bike and pedestrian paths across a railroad track that currently separates the Center from Idaho National Laboratory facilities.

Item Name: Rexburg Community Greenways Project

Amount Requested: \$426,000

Recipient: City of Rexburg

Location of work: Rexburg, Idaho

Public Interest: To provide recreation trails to the community

Project Description: The project will provide pedestrian and wheelchair access along the Snake River in Rexburg.

Item Name: Ryder Park Development

Amount Requested: \$6,800,000

Recipient: City of Idaho Falls

Location of work: Idaho Falls, Idaho

Public Interest: To develop a regional park from donated land

Project Description: The project will construct nature trails, a boat launch, wildlife habitat, parking, and restrooms at Ryder Park.

Item Name: Treasure Valley High Capacity Alternative Analysis

Amount Requested: \$3,130,000

Recipient: Community Planning Association of Southwest Idaho

Location of work: Ada and Canyon Counties, Idaho

Public Interest: To develop alternative transportation options for reducing congestion, easing freight movement, and increasing economic vitality in the region

Project Description: The project will evaluate alternative transportation options along the I-84 corridor in Ada and Canyon Counties, including the possible use of the Boise Cut-off rail corridor.

Item Name: Treasure Valley Transit Facilities

Amount Requested: \$1,840,000

Recipient: Valley Regional Transit

Location of work: Ada and Canyon Counties, Idaho

Public Interest: To improve transit services

Project Description: The project will identify and acquire site locations and prepare required environmental analysis for up to four transfer centers and and maintenance facilities with the goal of providing up to 100 new park-and-ride parking spaces at up to four locations.
